Press release

Jorte Corporation
2018 May 17

**Jorte to host the 42nd meeting of CalConnect, the leading global producer of digital calendaring & scheduling standards, in Tokyo on June 4-8, 2018**

Jorte Corporation, (Head Office: Minato-ku, Tokyo, [Http://Www.Jorte.Com/](http://Www.Jorte.Com/)) the developer of the "Jorte - calendar and personal organizer", with 3,000,000 downloads worldwide, and a member of the CalConnect consortium, is concurrently hosting the CalConnect meeting, and co-hosting the "Event Information Utilization Consortium" (JEDC) "Digital Event Summit" which starts on June 6th.

CalConnect and the JDEC will meet on June 6th to discuss adoption of unified standards and the international distribution of the event information and delivery format in Japan.

The program for the June 6th “Digital Event Summit”:

1. **Cabinet Secretariat Information Communication Technology Comprehensive Strategy Office** Cabinet Counselor Eisuke Yamasudo, "Open Data Policy in Japan"
2. Ministry of Internal Affairs and Information Distribution Administrative Bureau Takao Ueno. "Open data efforts at the Ministry of Internal Affairs and Communications"
3. Sharp Corporation TV System Division Headquarters Matsumoto Mitsuho / Horii Miho / Atsumi Tadayudo, "About Calendar Service Approach for TV (Tentative)"
4. Kuniyuki Kawashima Director COO of Jorte Co., Ltd. "About the realization of a unified standardized and international distribution of the Japanese event information delivery format."
5. CalConnect - Dave Thewlis, Executive Director, "Introduction to CalConnect"
6. Spherical Cow Group - Mike Douglass / 1 & 1 - Thomas Schafer “Calendaring and Scheduling standards and protocols overview”
Title: "About the realization of a unified standardized and international distribution of the Japanese event information delivery format."
CalConnect, more formally “The Calendaring and Scheduling Consortium” is a member-driven, non-profit corporation of the leading developers of calendaring & scheduling products and services, representing research & educational institutions, and North American, European and Asia/Pacific IT companies, ranging from small startups to the world’s largest IT organizations. CalConnect members gather three times a year to discuss current interoperability problems, and to develop next generation open standards and services.

CalConnect meetings are held all over the world, with previous meeting in 2018 January meeting Sunnyvale, California (hosted by OAuth- formerly Yahoo! and Verizon), and upcoming meetings in September 2018 in Karlsruhe Germany (hosted by 1&1), and February 2019 in Zurich, Switzerland (hosted by Google).
